# LED Displays

## Call Forward System

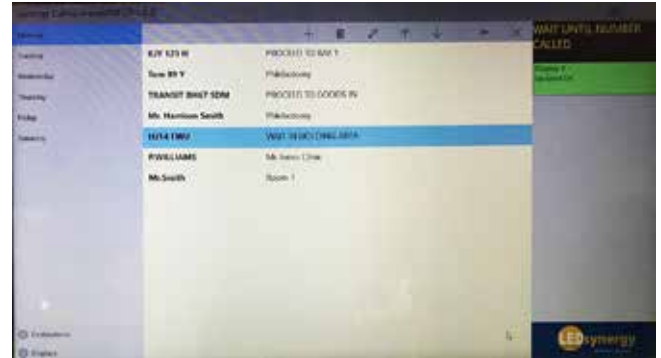

There are many different applications for a **Call Forward System**, all requiring a queue management system that will efficiently inform those waiting when it is their turn and informing them where to go.

Applications such as:

- **Waiting Rooms**
- **Warehouse and Goods-In**
- **Retail Collection**
- **Food Order Collection**

At LEDsynergy we have developed our very own Call Forward System Software, shown here on the right. It is user friendly, can send messages to many displays and can, obviously, be updated instantly.

Shown below are a couple of typical applications, medical and warehouse, but the principle is the same for any application.

## MEDICAL CLINICS

### Default Message

A default message is displayed until you call the next person forward, i.e. 'PLEASE WAIT UNTIL NAME CALLED' or 'REMAIN IN WAITING ROOM'.

### Displays

If you have multiple LED screens for different areas you can set up multiple displays, 'SCREEN - OUTPATIENTS WAITING ROOM', 'SCREEN - CLINIC WAITING ROOM' etc. You can choose which display to send to.

### Destinations

This is where you can specify the various destinations that those waiting must go to, i.e. 'MR TAYLORS CLINIC - room 2', 'Go to X-RAY' etc.

### Input Patients

You can input the patients names for each day of the week then select the destination from the destinations list. When you are ready to call the patient forward simply click on their name and send to the display.

# LED Displays

## Call Forward System

### WAREHOUSE AND GOODS-IN

#### Default Message

A default message is displayed on the screen until you call the next vehicle forward, i.e. 'WAIT UNTIL REG No. CALLED' or 'REMAIN IN WAITING AREA'.

#### Displays

If you have multiple LED screens for different areas you can set up multiple displays, 'SCREEN - LORRY PARK', 'SCREEN - SMALL VEHICLES WAITING AREA' etc. You can choose which display to send to.

#### Destinations

This is where you can specify where those waiting must go to, i.e. 'GO TO BAY 6', 'PROCEED TO GOODS-IN' etc.

#### Input Registration Number

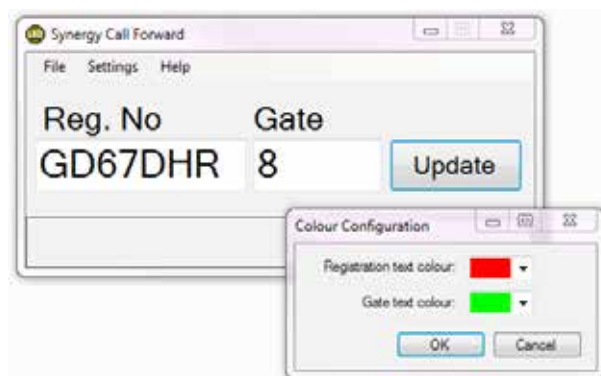

You can input the Reg No.s for each week day and select the destination. When you want to call them forward click the icon to send to the display.

### SIMPLE VEHICLE ALL FORWARD SYSTEM

We have an even simpler call forward system for vehicles as shown below. Simply add the vehicle reg number and input the gate number and the LED screen will show this simply and efficiently.

This simple system with display just the vehicle registration number and the gate or bay number.

# about us

As an established leader in the UK for electronic message display signs and with 40 years experience in the business of supplying programmable LED signs and LED displays, you can be sure that we'll give you the right advice and excellent service, these are the values that we hold dear.

## accreditations

LED Synergy Electronic Displays have 40 years experience in the manufacture and supply of electronic displays to many companies and individuals worldwide. We have a wealth of experience and expertise and have been accredited with the following certifications:

WE ARE ALSO AN APPROVED HIGHWAYS AGENCY CONTRACTOR

- **Simple to operate products with bespoke software**
- **Value for money & satisfaction guaranteed**
- **Superb British manufactured products**
- **Excellent support & customer service**

**"I am over the moon!"** *Quartermaster*  
- Army Land Forces HQ

**"Well done, system all up and running for D-day, and very positive comments from all the staff."**  
*Richard Aschough (Treasury) - Bank of England*

**"I've dealt with a lot of LED companies and I wouldn't ever now consider moving from LEDsynergy"** *Paul Holland - WAE Group*

**"Our new electronic displays really help, before the displays, the visitors made their way to the nearest ride or the most popular. This created large queues on some, but no waiting on other rides, but with the introduction on the boards visitors are better informed, making a more enjoyable day for all"** *Chris Burton - Park Manager - Legoland*
