

## Showroom at LEDsynergy

Here at LEDsynergy, we are proud to introduce our brand new showroom at our offices here in Andover, Hampshire just an hour from London and would like to invite our customers and potential customers to visit us to view our large range of LED displays and see what they can do and have a play with them to see for yourselves just how easy they are to use!

You can see examples of:

- Full Colour Video Boards
- Various LED pitch Displays
- Financial Ticker
- Creative LED Shapes
- LED Floor
- LED Time & Temperature
- Standard Text Displays
- External Screens

# LED Displays

## Examples of Displays

LED screens needn't just be square or rectangular, you can let your imagination go wild with our creative displays. We even have LED floors!

We also have on view our standard range of text displays for the more simpler requirements. These screens can also show images and graphics and are ideal for situations where you need the flexibility of text and images but also with an eye on the cost.

LED Clocks can be used for Time, Temperature and Counters, we have various sizes available.

If you'd like to visit us then please just give us a call! or [Click here](http://www.LEDsynergy.co.uk)
